

# SUAD YOUTH COP

## Press & Social media release

The SUAD YOUTH COP is an **entirely virtual mock negotiation of the UNFCCC Conference of the Parties (COP)** organized by the Sorbonne University Abu Dhabi (SUAD), in partnership with University of Paris Cité and Federal University of Ceará.

The event is free of charge and open to university students from all over the world. It will take place on **October 2023** (dates yet to be confirmed) and during three days of active negotiations, 25 chosen teams (75 students in total) will discuss and produce documents that will be presented at COP28 in Dubai.

By the end of the negotiation, the two best teams (6 students in total) will be awarded with the participation at COP28 in Dubai (tickets and travel costs to Dubai covered). Honorable mentions (digital certificates) will also be granted to honor specific types of performances during the event.

YOUTH COP aims to provide students from diverse backgrounds with a space to develop their critical thinking about the challenges of climate change, to understand and promote the roles of states and international organizations in global climate policy making, and to enhance their interpersonal skills.

The event will have its launch in a **webinar on May 8, 2023**. #SAVETHEDATE
